

Advanced Emergency

Medical Technician (HYBRID)

January 22, 2024 – June 8, 2024

Remote Lecture Every Monday and Wednesday
Lab every Saturday.

Matamoras Fire Department, Matamoras PA

Course Overview

Our AEMT Program is a combination of in-person, remote, and self-paced, online modules with interactive assignments and discussions. Students are required to attend in-person lab and remote lecture sessions throughout the program to demonstrate their competency in numerous psychomotor skills, complete testing requirements and prepare for the National Registry of Emergency Medical Technicians (NREMT) examinations.

The AEMT course is an average of 350 hours of instruction that covers the following in accordance with the National EMS Education Standards:

- Anatomy and physiology
- Assessment of injuries and illnesses (medical and Trauma)
- Assisting patients with their own prescribed medications
- Cardiopulmonary resuscitation (CPR) and automated external defibrillation (AED)
- Environmental emergencies
- Lifting, moving and transportation of patients
- Pediatric and geriatric emergencies
- The overall roles and responsibilities of the AEMT

The AEMT Program requires mandatory prerequisite courses listed below. More information will be provided at the first class.

- IS-5.a: An Introduction to Hazardous Materials
- NIMS IS-100.c: Introduction to Incident Command System (ICS)
- NIMS IS-200: ICS for Single Resources and Initial Action Incidents
- NIMS IS-700: National Incident Management System (NIMS), An Introduction
- NIMS IS-800: National Response Framework, An Introduction

This program is designed to meet all National requirements to prepare for the AEMT exam given by the National Registry of Emergency Medication Technicians (NREMT).
