PennDOT's Scheduled Roadwork for the Week
**September 25, 2020 to October 2, 2020**

**Dunmore** – The following work is scheduled for this week throughout Northeastern Pennsylvania. Anyone wishing to sign up for PennDOT Travel Advisories in Lackawanna, Luzerne, Pike, Susquehanna, Wayne, and Wyoming counties can do so by subscribing to PennDOT news at [www.penndot.gov/District4](http://www.penndot.gov/District4). Follow/like PennDOT on Twitter at 511PANortheast and Facebook at Pennsylvania Department of Transportation (PennDOT). Please note all work depends on weather conditions.

Work on these projects will be in accordance with Centers for Disease Control and state Department of Health guidance as well as a project-specific COVID-19 safety plan, which will include protocols for social distancing, use of face coverings, personal and job-site cleaning protocols, management of entries to the jobsite, and relevant training.

The Pennsylvania Department of Transportation (PennDOT) and the Pennsylvania State Police (PSP) are reminding motorists to travel responsibly ahead of the Labor Day holiday.

**Long Term**

Exit 184 (Moosic Street) will be closed through September. An emergency exit ramp will be in place for emergency vehicles only to exit 81SB onto Moosic Street. Two lanes of traffic will be maintained during construction. Work is scheduled to take place during the day between the hours of 7:00 AM to 5:00 PM. This is a weather sensitive operation and the date can change due to the forecasted weather. The work consists of deck repairs and overlay.

This project consists of milling and resurfacing of an existing bituminous interstate roadways and ramps and concrete bridge repairs. Other work includes guiderail, impact attenuating devices, temporary traffic control (day and night work), full depth shoulders to shift traffic at bridge work, temporary concrete barrier, excavation, delineators, signing, pavement markings, removal of portion of bridge, concrete bridge deck repair and miscellaneous construction.

**UPDATE:** The split at the Moosic Street Bridge SB was removed to close the left hand (passing lane) on Wednesday night September 9. The Moosic Street Ramp will remain closed. The split on the NB side will be removed on Tuesday night September 15 and the left lane will also be closed. This work is expected to be completed around the end of

PennDOT reminds motorists they can log on to 511pa.com or call 511 from any phone to check traffic conditions before heading out.
October. The contractor is scheduled to complete the paving between the Luzerne County line and the Scranton Expressway from 9-13 to 9-23. This work will be done at night. I-81 will be closed to one lane of traffic between the hours of 7:00 PM to 6:00 AM. When this is completed new pavement markings will be installed also at night from 9-23 to 9-25. The Moosic Street ramp is scheduled to reopen around 10-22-20.

SR 81 SB mm 194 to 191. Bridge construction. Work hours are 7:00 AM to 5:30 PM Monday thru Friday. Work scheduled to begin 5/04/20 and will continue thru 11/15/20. New traffic pattern effective 6/30/20 (Split lanes through work area).

Concrete Patching and Grinding Project

The ramp at Drinker Street S.B is now open. Also all lane closures are now cleared. Work will continue on the project till fall of 2020 with temporary lanes closures with both day and night work

I-81 and I-84 Pavement Failure Project: Started back up on Monday, April 13, 2020 and will continue throughout the summer. Work will begin on I-81 North and South from Exit 185 (Central Scranton Expressway) to Exit 186 (Drinker St) from 7:00 AM to 5:00 PM. Lane closures will be temporary. Work will also begin on I-84 East and West from I-81 to Exit 2 (Elmhurst). The project should be completed by the fall of 2020.

The project consists of concrete slab replacement and concrete pavement preservation activities in various locations on I 81 NB/SB from Exit 185 (Central Scranton Expressway) to Exit 186 (E Drinker Street) & on I 84 E/W from I 81 to Exit 2 (Elmhurst, PA 435) in the City of Scranton and Dunmore Borough, Lackawanna County. Concrete slab replacement includes the removal of existing concrete slabs, installation of subbase, new pavement joints, pavement patching joints, and new precast concrete slabs, regular concrete or accelerated concrete, based on location. Pavement preservation activities include dowel bar retrofits, sealing of the longitudinal and transverse joints, and diamond grinding of the new concrete pavement for a smoother ride. All work is confined to the existing highway . The project began in 2019 and will be completed by the end of 2020 construction season.

I-81 SB Exit 194 (Clarks Summit) to 191 (East 6 Business Dickson City) bridge construction. Work hours are 7:00 AM to 5:30 PM Monday thru Friday. Work scheduled began on 5/04/20 and will continue thru 11/15/20. Expect alternate traffic patterns throughout construction.

PennDOT reminds motorists they can log on to 511pa.com or call 511 from any phone to check traffic conditions before heading out.
Project ECMS 112285  I-81/I-80 Luzerne/Schuylkill Co. Line and heading Southbound, towards SR 93 milling and paving will start on June 8, 2020. This will be day lane restriction, from 7:00 AM to 7:00 PM, Southbound, for approximately 7 to 8 weeks. Once this work is complete we will then turn Northbound for another 7 to 8 weeks. This project also contains ramp paving and concrete patching which will require detours around the 81/80 interchange.

The I-81 Drinker St. Exit Signal Project in Lackawanna County started on Monday May 18. Motorist can expected single lane closures on SR 2020, Drinker St. in Dunmore between the I-81 off-ramp and Meade St. between the hours of 7 am to 5 pm.

I-81 Bridge project: 4 bridges remaining that are all being worked on at the same time. 3 of the bridges will be worked on in 3 phases leaving I-81 open to 2 lanes in each direction during construction. The project are in the first phase of 3 on all 3 bridges. The bridges are located from Exit 185 (Central Scranton Expressway to the Lackawanna County line in Moosic.) Paving work will take place at night. Date to be announced.

Interstate 84

Short Term

I-84 Twin Bridge Project

I-84 Eastbound Temporary Lane Closure Cue Protection. The work will take place from approx. 8:00 PM to 4:30 AM. The work consist of temporary bridge deck repairs, bridge deck seals replacement and bridge structural steel repairs. The work will at mile marker 1.7 to 2.4. 

Construction Update:
1.) Construction of South Staging Yard.
2.) Installation of Storm Sewer Pipe and Drainage Structures.
3.) Construction of Drainage Basins / Swales.
4.) Install Pier #1 Temporary Shoring.
5.) Install Temporary Stream Causeway.
6.) Temporary Type 2 Deck Repairs on the Existing West Bound Structures. This work to be performed with a Lane Closure, Sunday thru Thursday Nights (approx. 8:00 PM to 4:30 AM), weather permitting.

I-84 -West & East ---Herbicide Spraying -9/30/2020-10/1/2020-7:00 AM to 3:00 PM

PennDOT reminds motorists they can log on to 511pa.com or call 511 from any phone to check traffic conditions before heading out.
Long Term

**Twin Bridge Replacement: ECMS 69181** The I-84 over Lackawanna Rail Road/Roaring Brook and SR 435 Section 282 project includes the replacement of three bridge structures and associated roadway work on I-84 and State Route (SR) 435. Two of the bridges to be replaced are mainline bridges carrying I-84 SB & NB and the third bridge I-84 NB Bridge over SR 435 will be replaced with a flyover structure spanning both directions of I-84 to create a right-hand exit to SR 435 SB. Additional work will include rehabilitation of the abandoned Erie and Wyoming Valley (E&WV) Railroad Bridge to facilitate construction access. Additional work will include roadway reconstruction and construction of retaining walls to accommodate the Route 435 grade adjustments. Physical work to be completed by **4/24/2026**.

**ECMS 76861; Interstate 84 East and Westbound construction.**
The project consists of the reconstruction of Interstate 84 in Greene, Palmyra and Sterling Townships in Pike and Wayne Counties. The overall project length is approximately 8 miles. The project resumed on May 25, 2020. Interstate 84 will be under a long term restriction from mile marker 17 to 26 Eastbound and Westbound. Westbound traffic will cross over in a single lane pattern onto the Eastbound lanes. Traffic will be single lane from mile marker 18.5 to 22.0. Physical work to be completed by **06/30/2023**.

**ECMS 91540 and 93807**
Update: Short-term lane closures at night on I-84 Eastbound and Westbound from mile marker 2.5 to 3.5 will start on Monday 9/14 through October 7th between 7:00 pm to 6:00 am. I-84 milling and paving started on August 3, 2020 to September 30, 2020. Bridge work from August 3, 2020 to November 24, 2020. The section from just outside Dunmore to Roaring Brook will be short term night time **7:00 PM to 6:00 AM** approximately 4.0 miles EB/WB. The section from Mount Cobb to Sterling will be long term daytime **6:00 AM to 7:00 PM** approximately 5.0 miles EB/WB

Scranton, PA: Pennsylvania Department of Transportation (PennDOT), in coordination with the City of Scranton, has started preliminary design for the Scranton Local Bridges Project, which includes the replacement of the following four bridges: Elm Street, North Main Avenue, Parker Street, and West Lackawanna Avenue. PennDOT has launched a website for the Scranton Local Bridges Project, which allows the public to track the progress of each bridge replacement. The website can be viewed by visiting PennDOT’s District 4 website and clicking on “Construction Projects and Roadwork.”

Main St Corridor PHIIIA Traffic Signal, Scranton and Dickson City, PA EMCS # 105173

The proposed project consists of bituminous pavement resurfacing and signal improvements along the Route K-0107 (Main Ave and Main Street) corridor in Lackawanna County, Borough of Dickson City. The purpose of the project is to maintain the existing roadway for motorists, improve turning movements at the intersections with S.R. 2006 (Boulevard Avenue), Eagle Lane and S.R. 1037 (Dundaff Street), upgrade existing traffic signal facilities at the existing intersections along Route K-0107 with I-81 Ramps Q-R, with the private driveways at Johnson College/Schiff’s Market, with I-81 Ramps M-N/Viewmont Drive, and with S.R. 0347 (West Lackawanna Avenue), as well as to provide ADA compliant handicap accessible curb ramps within the limits of pavement resurfacing for safe crossing by pedestrians. Other work includes: excavation, drainage, cement concrete curb & sidewalks, temporary traffic control, pavement markings, signs, traffic signals, fencing and other miscellaneous construction work. Kriger Construction, Inc. of Scranton, PA is the general contractor on the $3.37 million project, which is expected to be complete in November 2021.

During construction, motorists may experience daytime and nighttime lane restrictions and are advised to expect delays and use caution traveling through the area. Updates will be provided to the public in advance of any traffic pattern changes, and all schedules are weather dependent.

Kriger is scheduling work for ECMS 105173 for 25 MM base repairs. Currently base repair work scheduled at Boulevard and Main intersection must be done at night (7:00 PM -5:00 AM). The 2 Intersection with 25 MM base repair is limited to off-peak hours.

PennDOT reminds motorists they can log on to 511pa.com or call 511 from any phone to check traffic conditions before heading out.
during daytime (6:00 AM to 9:00 AM and 3:00 PM -6:00 PM no work allowed). Additionally, all milling for base repair is noted to be done 9:00 PM to 6:00 AM.

SR 4017, Gravel Pond Rd is closed between the intersection of SR 307 (PA-307)-Winola Rd in Newton Township, Lackawanna County to the intersection of SR 0006(US-006)-in Glenburn Township, Lackawanna County for emergency bridge repair. A detour will be in place.

**Luzerne County**

SR 309 North Cross Valley bridge on Thursday & Friday September 17 and 18, 2020. The temporary SR 309 Southbound driving lane closures will be in effect from 9:00 AM to 3:00 PM each day. The contractor will be preparing to re-open the Exit 3 offramp from SR 309 SB to River St., SR 2004. Short term traffic delays are expected on SR 309 SB due to the temporary lane closures. This work is weather dependent.

At the request of Freeland Borough PennDOT is going to change the existing traffic controls at the Front St / Birkbeck St intersection to a full multi-way (i.e. 3-way) stop. The Luzerne County sign crew will be installing the multi-way stop during the week of September 14th. Please note, a red flasher will also be installed on the new stop sign for a period of 30 days while motorists become accustomed to the change.

*PennDOT reminds motorists they can log on to [511pa.com](http://511pa.com) or call 511 from any phone to check traffic conditions before heading out.*
Route 11: Paving project for Route 11 (Wyoming Avenue) from the Midway Shopping Center to the Edwardsville/Gateway Shopping Center approx. 9 miles, should be starting by the end of August and will continue to the first week in November. Work will take place from 7:00 AM to 6:00 PM daily.

SR 1036 Carverton Road in Trucksville/Luzerne County Project will be restarting Monday May 18th. Minor Work Area MPT during work hours only 7:00 AM to 5:00 PM weather pending. The proposed project consists of replacing a 24” pipe and the two inlets with the same size pipe and inlets. Also, this project will replace the adjacent concrete curbing and sidewalk. Other work includes bituminous full depth roadway/shoulder improvements, drainage, bituminous overlay, landscaping, temporary traffic control, excavation, E & S control measures, signing, pavement markings and other miscellaneous construction all contained within an overall project. This project should be completed by Oct 2, 2020. Update the left turning lane will be closed on Tuesday, Sept 29, 2020 from 7:00 to 5 PM for paving work. The work is dependent on weather conditions.

SR 93 Bridge Project: Knorr Road (T-344) is temporarily closed in Sugarloaf, Township at the intersection of SR 93 as part of the SR 0093 bridge replacement project. There is a detour on Knorr Rd. The detour signage directs Knorr Rd. traffic to use T-423, Brown’s Grove Rd., to T-421, St. John’s Rd., to the intersection of SR 93 1 mile north of the Knorr Rd. & SR 93 intersection. Project completion date is scheduled for December 2020.

**Bridge Preservation Work**

Work began on Monday, April 13 and will continue throughout the summer as short term closures on the SR 115 NB and SB bridges over I-81 in Plains Township from 7:00 AM to 5:00 PM.

The SR 81 Bridge rehabilitation project: widening shoulders for repairing the SR 115 bridge decks over SR 81 in Luzerne County. This work is being done to shift traffic before and after the bridges so repair work can be performed on the bridges. Long term lane shifts are expect to last thru the summer with no lane restrictions.

This project consists of bridge maintenance repairs that but not limited to: Repair deteriorated concrete at substructure, repair prestressed beam ends, repair concrete bridge deck, perform bridge cleaning, perform diamond grinding of bridge deck, replace deck joints, perform joint cleaning and sealing, seal joints in concrete barriers, apply

*PennDOT reminds motorists they can log on to 511pa.com or call 511 from any phone to check traffic conditions before heading out.*
protective coating to reinforced concrete surfaces, apply new pavement markings, excavation, full depth shoulder widening/reconstruction, temporary traffic control, temporary concrete barrier, plain cement concrete curbing, removal of portion of bridge, painting existing steel, guiderail, E & S Control measures and other miscellaneous construction work.

**Long Term**
The SR 309 Off-Ramp from SR 309 Southbound to River Street (SR 2004) Exit 3 (Plains/Wilkes-Barre) on the North Cross Valley will be closed until the fall of 2020. During this time, the bridge deck and parapets will be removed and replaced. Bridge beams and girders will be abrasive blasted, primed painted. The posted detour will lead motorists to Exit 2 (Wilkes-Barre/Center City), to Wilkes-Barre Boulevard North, where temporary traffic signals have been installed, to SR 309 North and back to River Street. A special provision was made for emergency vehicles that will allow them to exit SR 309 SB at a newly constructed off-ramp that leads to River Street. Emergency responders will be going against the normal flow of traffic, but behind concrete barriers. **The contract completion date is July, 2021.** Contractor may have to push milling and paving till the spring of 2021.

**Updated:**
Project is ahead of schedule. Completion date listed is **July 17, 2021.** Contractor is working to open the Ramp A-A off ramp from SR 309 SB to River Street on **September 18, 2020.** Paving of Ramps C-C & D-D is scheduled for late September to early **October 2020.** The bearing replacement work on Ramp A-A pier 6 span 6 will be completed after the Ramp A-A is opened. All work should be completed by **November 20, 2020.** Paving of River Street, the on & off ramps, and a short section of Maffett Street has not started.

Milling and paving will be performed on River St., the on ramp from River St. to SR 309 SB and the off ramp from SR 309 NB to River St. at Exit #3 at the North Cross Valley bridge project. Monday September 21, Tuesday September 22, and Wednesday September 23, 2020 Day work. Thursday September 24 and Friday September 25, 2020 Night work Sunday September 27 and **Monday September 28, 2020 Night work.** Temporary lane closures will be in effect during the from **7:00 am to 3:00 pm** for daytime work. Temporary lane closures will be in effect during the from **8:00 pm to 6:00 am** for nighttime work.

*PennDOT reminds motorists they can log on to [511pa.com](http://511pa.com) or call 511 from any phone to check traffic conditions before heading out.*
SR 2010 Bridge replacement: This is a Design-Build Project that includes the replacement of the existing two span bridge (continuous steel welded plate girder with composite deck) superstructure over SR 0029. Other work includes roadway approach work, guide rail replacement, temporary traffic control, temporary traffic signals, temporary concrete barrier, removal of portion of existing bridge, utility relocation, structure concrete work and other miscellaneous construction.

PennDOT reminds motorists they can log on to 511pa.com or call 511 from any phone to check traffic conditions before heading out.
This Bridge preservation project consists of the repairs of five (5) bridges in Wayne county and one (1) bridge in Wyoming county. Work includes (but is not limited to) joint sealing, excavation, rock protection & structure backfill, drainage installation, bridge railing & guiderail repairs, beam seat repairs, beam repairs, wingwall & headwall repairs, superstructure demolition & reconstruction and debris removal. Additional work includes Unforeseen Bridge Repairs and temporary traffic control.

SR 1002: A recent inspection on the Skinners Falls Bridge (Milanville Road) over the Delaware River identified various structural issues that have caused the department to close the bridge until further notice. Although the average daily traffic on this bridge is approximately 325 cars, this bridge is one of 10 bridges in PennDOT District 4 that connect Pennsylvania with New York, and is therefore part of the Joint Interstate Bridge Commission. Originally built in 1901, the bridge is listed on the National Registry of Historic Places and is located within the National Park Service Upper Delaware Scenic and Recreational River. Coordination will continue with NY DOT along with various other state and federal agencies to determine the next step for the bridge. A detour will be posted from SR 1002 to SR 1004 (Milanville Rd) to SR 1008 (Plank Road) to the Narrowsburg Bridge and to SR 97 in New York.
